

Surya Prakash

Full Stack Developer | Founder, Surya Host & Devnexus

hey@maybesurya.dev · maybesurya.dev · linkedin.com/in/maybesurya · github.com/maybesurya

Dehradun, Uttarakhand, India · Available for Opportunities

Professional Summary

Versatile Full Stack Developer and serial entrepreneur with 3+ years of hands-on experience building and shipping production web applications across SaaS, fleet management, developer tooling, and corporate websites. Currently interning as an AI-Assisted Full Stack Developer at TBI GEU; previously interned at Dev To Dsa (8 months). Founder of Surya Host (web hosting, est. 2022) and Devnexus (web solutions, est. 2026). Deep expertise across the full stack — React, Next.js, JavaScript, PHP, Python, SQL, MongoDB — and cloud/server infrastructure: Nginx, Apache, Docker, AWS, DigitalOcean, Cloudflare, DNS, SSL/TLS, and VPS administration.

Technical Skills

Languages: Python, JavaScript, PHP, HTML5, CSS3, C++, C

Frameworks & Libraries: React, Next.js

Databases: SQL, MongoDB

Infrastructure: Linux, Nginx, Apache, Docker, AWS, DigitalOcean, VPS, Cloudflare, DNS, SSL/TLS, cPanel, WHM, Networking

Tools & Platforms: Git, GitHub, WordPress, Supabase, Vercel, Lovable.dev, Mappls Maps API

Soft Skills: Leadership, Client Relations, Public Speaking, Creative Design, Team Collaboration

Work Experience

AI-Assisted Full Stack Developer Intern — TBI GEU Jun 2026 – Present

- Working at GEU Technology Business Incubator on AI-integrated full stack web solutions. Leveraging LLM workflows and modern frontend/backend technologies to accelerate product development.

Full Stack Developer Intern — Dev To Dsa Oct 2025 – May 2026

- Contributed to dynamic web application development using modern frontend and backend technologies over 8 months. Built, optimised, and deployed full-stack solutions while collaborating in an agile team environment.

Founder — Devnexus Jan 2026 – Present

- Founded a web solutions company delivering custom web applications, development consulting, and digital services. Managing client projects end-to-end — requirements, architecture, development, and deployment.

Founder & Operator — Surya Host Oct 2022 – Present

- Founded and operate a web hosting company providing cPanel/WHM-based shared and VPS hosting services. Manage DNS, SSL provisioning, domain lifecycle, Cloudflare integration, and server uptime across all clients. Designed and launched SuryaHost.in — a fully responsive platform with a self-service client area.

Head of Marketing — Rotaract Club of Rudrapur United Aug 2025 – Mar 2026

- Led club marketing — created promotional flyers, visual designs, and social campaigns to boost visibility.

District Deputy IT Head — Interact District 3110 May 2024 – Jun 2025

- Oversaw digital operations across the district; designed flyers, ran social campaigns, produced reels and videos. Received Letter of Recommendation; awarded at IDCON 2024 by Rotary Club of Kanpur.

Selected Projects

Devnexus.in [Next.js, React, TypeScript, Tailwind, Supabase, PostgreSQL, Cloudflare, Razorpay, Vercel]

- Full-stack agency platform with custom auth (email, Google, magic links, passkeys, TOTP 2FA), Razorpay payments, Cloudflare R2, Brevo/Mailgun emails, Turnstile protection.

MaybeSurya.dev [Next.js, React, TypeScript, Tailwind, Framer Motion, GSAP]

- Personal portfolio with custom admin panel for dynamic content and analytics.

RoutePulse [React, JavaScript, Mappls Maps API]

- Fleet management for universities with live tracking, SOS alerts, ETA, route optimization, and driver dashboards.

EduVerse [React, JavaScript, Google Generative AI]

- AI-powered review management SaaS with automated insight generation.

QRGenX [Backend, API Development, Authentication]

- QR generation platform with public APIs and API key authentication.

GetYours.Space / MyWebApp.tech [DNS Management, Platform, Automation]

- Custom subdomain platform with automated DNS provisioning and self-service onboarding.

SuryaHost.in [Vite, React, TypeScript, shadcn/ui, Tailwind, PHP, MySQL, cPanel/WHM]

- Modern hosting platform with client area, billing, WHM/cPanel integration, and support.

PDFTools [Next.js, React, TypeScript, Tailwind]

- Browser-based PDF utility for merging, splitting, compressing, converting.
